think the bill ought not be passed. If you are not going to vote for this bill all the way across the Board, and I don't think there will be enough votes to advance it, we may as well dispose of it now and then we won't have to take it up on Select File with the same arguments. We won't have to consider the motion that I am going to make, if it reaches Final Reading, to return it to strike the enacting clause. If you are going to support it all the way, then that can be demonstrated now. If you are not going to, I think in the interest of time as well as anything else, we ought to go on and kill it now.

SPEAKER: Senator Cavanaugh, what is your light doing on?

SENATOR CAVANAUGH: I'd just state to Senator Chambers, Senator Luedtke and I would have no objection to him representing the birds unless the birds have paid him a fee.

CLERK: Senator Simpson voting no.

When I went up to look, the motion was totally meaningless because all it said was that you couldn't shoot at a migratory bird from the road as defined in Section, whatever it is, which is only the travel portion of the road. Well you couldn't do that before anyway and I do not know the motive of putting an amendment on that changed nothing from the way it was but my amendment there now redefines what the area of the right-of-way which cannot be hunted from, and instead of just the travel portion, it would include the entire area from...of the right-of-way.

SPEAKER: Further discussion. Senator Syas.

SENATOR SYAS: Well, I was not familiar with the DeCamp amendment, but when I talked to Senator Walter George a couple three weeks ago on this, I assumed that his amendment took care of the ditches and, of course, my intention on the amendment assuming that Senator DeCamp
